## DIRECTS FIGHT FROM PRISON

Charles W. Morse Battling for His Freedom.

### SENTENCED TO FIFTEEN YEARS

Famous Financier May Be Forced to Serve Long Term in Federal Prison at Atlanta, Ga., for Misapplication of Funds of the National Bank of North America—Former President Curtis Given His Liberty.

New York, Nov. 7.—From a cell in the Tombs prison Charles W. Morse now directs the efforts of his counsel to secure his freedom, he having been sentenced to serve fifteen years in the federal prison at Atlanta, Ga., for misapplication of the funds of the National Bank of North America and making false entries in the books of the bank. Alfred H. Curtis, former president of the defunct bank, who was jointly tried and convicted with Morse, was given his liberty on a suspended sentence.

While Morse's lawyers immediately applied and secured a stay of execution for ten days after sentence had been imposed, still it is probable that Morse will remain a prisoner in the Tombs until Monday, as Judge Hough has refused to admit the financier to bail. The Morse lawyers applied to

C. W. MORSE.

the United States circuit court of appeals for a writ to show cause why their client should not be admitted to bail, and the writ was granted, but it is not returnable until Monday; hence it appears that Morse must remain a prisoner until the question of bail is settled on that day.

Whether a new trial will be granted Morse is problematical. Judge LaCombe granted a writ of error to the Morse lawyers. This writ is returnable Dec. 3 and is based on the usual grounds—exceptions taken by the defense during the trial and exceptions to the indictment itself. This step had to be taken before application for bail could be made, and it also leads to the argument for a new trial. The Morse lawyers say their client has instructed them to fight "to the last ditch."

"He might as well give me life as fifteen years."

Bitterly and cynically, Charles W. Morse thus commented on the sentence that Judge Hough in the United States criminal court had just imposed on him for violation of the federal banking laws.

"Why, I'm fifty-two years old now," he added, as for a second his sneer gave place to a look of sorrow and his voice was tinged with sadness. Equally the bitterness he felt reassured itself and he went on:

"I'm a sacrifice for political interests to the public clamor for a victim from the ranks of the so-called 'predatory rich.'"

The Dorcas society derived its name from Dorcas (Acts ix, 36), a woman who was full of good deeds and made coats and garments for the poor.

### FOR REST AND RECREATION

President-Elect Taft and Family Go to Hot Springs, Va.

Cincinnati, Nov. 7.—President-elect William H. Taft, Mrs. Taft and Fred W. Carpenter, private secretary, have left this city for Hot Springs, Va., where Mr. Taft will remain for rest and recreation until Thanksgiving.

Judge Taft had a conference with Myron T. Herrick but stated afterwards that no matters of significance were discussed.

The offices of Mr. Taft have been dismantled here and will be re-established at Hot Springs. While no official announcement has been made it is known upon reliable authority that Fred W. Carpenter, who has been Mr. Taft's secretary for many years, will be his secretary to the president, succeeding in that position William Loebe, Jr., who, it is stated, may have the position of secretary of the navy in the Taft cabinet if he so desires.

Mr. Carpenter was with Mr. Taft in the Philippines and has been his secretary in the war department.

Wendall Mischler, assistant secretary, retains that position and after a leave of absence will rejoin Mr. Taft this fall.

### JAP STEAMER SUNK.

One Hundred and Fifty Persons Drowned.

Tokio, Nov. 7.—News has reached here of the loss of the steamer Taish Maru, which sunk during a storm off Etoro Island. One hundred and fifty persons were drowned. The vessel was crowded with fishermen and passengers, and of those on board only twenty-nine were saved. The Taish Maru was a vessel of 674 tons. Etoro Island is a small island near the island of Hokkaido.

### COMPLETE CHANGE IN THE SITUATION

All Immediate Danger of War in the Balkans Removed.

London, Nov. 7.—The correspondent of the Times at Belgrade in a dispatch says:

"A complete change in the situation here in the past few days seems to justify the anticipation that all immediate danger of war in the Balkans has been removed. This change is due to the firm attitude of the powers toward the impracticable schemes of territorial compensation.

"The crown prince of Serbia returns from Russia as the harbinger of peace and doubtless in the future will abstain from bellicose utterances, the Russian government having shown a determination not to aid or countenance any efforts on the part of Serbia or Montenegro to set aside what has been accomplished or to obtain territorial compensation by force of arms."

### TAXICAB STRIKE ENDED.

The Old Wage Scale for Chauffeurs Will Be Continued.

New York, Nov. 7.—Settlement of the taxicab strike, which has been in progress for several weeks in this city, was announced by President H. N. Allen of the New York Taxicab company. The decision to terminate the strike was arrived at, President Allen's signed statement says, at a conference between the directors of his company and a committee representing the chauffeurs employed by the company before the declaration of the strike.

The old wage scale is continued, it is stated; chauffeurs now in the employ of the company will be retained and old chauffeurs will be reinstated as soon as they can be furnished with cars, "after they have made individual application for employment."

The strike in its early stages was attended with disorders which in some cases reached a serious stage, resulting in the destruction of considerable property and the loss of several lives.

## EIGHT PERSONS PERISH IN FIRE

Terrible Tragedy Occurs in a Manitoba Farmhouse.

### ONLY ONE OF THE FAMILY LEFT

Mother and Six Children Cremated and the Father So Badly Burned That He Will Die—Young School Teacher Who Was Stopping With the Family Over Night Is the Other Victim of the Fire.

Swan Lake, Man., Nov. 7.—The home of E. W. Carey, a farmer living a few miles south of here, was destroyed by fire and Mrs. Carey, six children and a Miss Gillespie, a young school teacher who was staying over night with the family, perished in the flames. Mr. Carey was so badly injured that he cannot recover. The fire was caused by Carey lighting the kitchen fire with coal oil. The other occupants of the house, who were asleep, were suffocated in their beds.

Particulars of the tragedy are meager. Carey and his eldest son, Herbert, got up early in the morning. The boy went out to attend to the stock and returned to find the house in a blaze. The father remained inside to light the fires and the boy succeeded in pulling out his body, finding him unconscious but still alive. There was no opportunity of reaching the upper part of the house and the unfortunate victims were evidently cremated in their beds. When the charred remains were taken from the ruins later in the day they were burned beyond recognition.

On account of the rapidity with which the flames spread it is believed gasoline or some other inflammable and explosive substance must have been used in lighting the fire.

Of the children who lost their lives five were girls and one a boy, all young.

### COSTA RICAN A HERO.

Rescues Many Students Imperilled by Flames.

Washington, Nov. 7.—Thrilling escapes and heroic rescue work by a Costa Rican student, Ruben Herrera, marked a fire which burned to the ground the Bliss electrical school in North Takoma, a suburb north of the city, with a loss of \$130,000, partially insured. More than 150 students in the dormitories were awakened to find the buildings in flames and escaped in their night clothes, many jumping from second story windows, while others who were cut off by smoke and fire in the corridors slid down ropes to safety. That there was no fatality was miraculous.

Herrera distinguished himself for bravery by rushing through the burning building and arousing his fellow students, rescuing among others his roommate, Evan Mickle of Reading, Mich. Both young men, beaten back by the flames and smoke, made a spectacular descent down fire ropes that dangled from the cupola six stories from the ground.

Many students lost all their effects. Professor S. T. Coie, one of the instructors, was badly burned.

### SON SHOTS FATHER.

Latter Declares That the Boy Was Justified in Doing So.

Charlotte, N. C., Nov. 7.—Fearful lest his father strike his mother, whom he was pursuing with an axe, Ernest T. Hayes, twenty years old, shot and mortally wounded H. T. Hayes at Belmont, a suburb of this city. The youth at once surrendered to the police. The father was taken to the Presbyterian hospital, where it is said he will die.

The trouble, it is alleged, grew out of the demand by Hayes for money which he had given his wife. To attending physicians the father stated that the boy was justified in shooting him and begged that he be not prosecuted.

### FUMES PROVE FATAL.

Two Women and a Child Killed by Them in Washington.

Washington, Nov. 7.—Three persons were asphyxiated by gas fumes from a kitchen stove at 1309 I street, northwest, this city. The dead are: Mrs. Hebe Cutts Brennerman, Mrs. Brennerman, her mother-in-law, and Cutts Brennerman, aged eighteen months.

The house is occupied by the family of Clarence Brennerman, a stenographer employed at the congressional library. When Mr. Brennerman returned from work he found his wife, his mother and his infant son dead on the floor.

## FINDS HIS WIFE AND DAUGHTER MURDERED

Pennsylvania Man's Homecoming a Sad One.

East Pittsburg, Pa., Nov. 7.—His wife lying on a bed, her throat cut from ear to ear, his six-year-old adopted daughter on the floor near by with her head almost severed, a razor dripping with blood on the bed beside the dead woman and great crimson splashes on the floor and bed clothing was the ghastly sight which confronted William Casey when he returned to his home in Fifth avenue, East McKeesport.

The scene of the tragedy was a room occupied by George Hartzell, Casey's son-in-law, whose wife was mysteriously killed a year ago. Hartzell has been boarding recently at the Casey home. Hartzell was missing when the murder was discovered, but forty-five minutes later he was found unconscious in a trunk near the bodies, a little bottle of chloroform at his nostrils. He died shortly afterward. Circumstances point to Hartzell as a murderer and suicide. He was under suspicion when his wife was found dead, but for lack of evidence was discharged.

### POLICE FORCE SURPRISED

Unexpected Shake Up the Result of Gambling Situation in New York.

New York, Nov. 7.—A "shake up" such as the police here have not experienced in years has taken place. Four inspectors were reduced in rank to captains, three captains were reduced to lieutenants, four inspectors were transferred, five captains were shifted to outlying precincts, two lieutenants were promoted to captains and ten sergeants were made lieutenants.

While Police Commissioner Bingham would not comment on the drastic step he had taken it was generally understood at police headquarters that the gambling situation had caused him to make the changes.

District Attorney Jerome has recently resumed his activities to stamp out the gambling houses of the tenderloin and other movements of a similar nature have been instigated. The "shake up" came as a surprise to the police force.

### Election Disorders in Portugal.

Lisbon, Nov. 7.—Election disorders occurred at Porto de Mose. A local Progressist leader fired a revolver from a window into a passing Regenerator parade, killing two persons. From the ranks of the procession a crowd of infuriated men rushed toward the building from which the shots had been fired and it was with difficulty that the troops rescued the assassin.

### Aged Man Killed by a Train.

Minneapolis, Nov. 7.—Minneapolis grade crossings, long feared death traps, added another victim to their long list when W. L. Daniels, sixty-three years old, was instantly killed by an outgoing St. Paul train between Snelling and Minnehaha avenues.

### Must Hang for Assault.

Charlotte, N. C., Nov. 7.—William Graham, a negro, on trial for criminal assault on Miss Pearl Tucker, a sixteen-year-old white girl, confessed and was sentenced to hang Dec. 18. The crime was committed a month ago. Graham was removed to the penitentiary under guard of the soldiers to await the execution of the sentence.

### Comfort, Style and Service Are now assured in these Children's Coats

The material is pure wool which is steam-shrunk—so it will not fade, cockle nor pull out of shape. It will resist the hard wear given to school coats by active youngsters.

These coats are cut generously full to allow for freedom of motion—the mothers will approve that.

There are bands of contrasting color and brass buttons that the children will like.

The "WOOLTEX" Label Is the makers' guarantee of two seasons' wear.

Lined throughout with satin—unlined—with deep facing and yoke lining—according to the price.

Now let the newly elected officers

fidence the voters reposed in them.

EVEN Missouri and Maryland are in  
the Republican column. The south  
shortly will break away from democra-  
cy to the good of that section as well  
as the entire country.

FIFTY cent wheat in democratic  
times and a dollar wheat in republican  
times made too strong an argument for  
the American farmer to resist when  
about to cast his ballot.

ging potatoes at his farm in St. Mat-  
thias the morning after election when a  
passerby informed him of his election.  
He did not seem to think it was a  
great distinction to be elected over the  
here-to-fore invincible Ole

THE adoption of the new city charter  
legislates out of office next spring all  
the city officers just elected. Their re-  
election will depend on what pro-  
gress they make in the solution of the  
city water and light problem by that  
time. The matter should be taken up  
at once, and put into shape for active  
work in the spring.

AN interesting phase of the vote on  
the new city charter, is the fact, that  
the portion of the city where it is most  
needed, it was strongly opposed. Street  
and sewer improvements were difficult  
if not quite impossible under the old  
charter and yet East Brainerd and  
Southeast Brainerd, where these im-  
provements are yet to be made, voted  
against the new charter.

### MAKES EXCELLENT STREET

Mankato Has a Combination of Tar  
Macadam Which Makes a Good  
Street Just what Brainerd Needs

Just now when Brainerd is starting  
in upon the matter of building good  
streets and is casting around to find  
what in the way of a substantial street  
can be made for the least money, it  
may be interesting to know what Man-  
kato is doing in this line. The cost  
there for this street is given at practi-  
cally \$40 for a fifty foot front.

But from reports that city seems to  
have solved the problem of a cheap  
street and a good street, one that can  
be used on steep grades as well as on a  
level surface.

First the driveway was narrowed to  
thirty feet, curbed, guttered and boule-  
vardeed. Then it was excavated to the  
depth of six inches and surfaced. Five  
inches of dry crushed stone one and one  
half inches in diameter was put on and  
rolled down with a ten ton roller.

Boiling tar was then applied from  
the gas works until the whole surface  
was covered. Then, says the Cement  
Age, a layer of broken stone an inch to  
an inch and a quarter in diameter  
mixed with coarse gravel was applied  
on the surface in proportion of three  
parts of stone to one of gravel. This  
was first mixed on a dry platform and  
and then thoroughly mixed with hot  
tar and applied on the surface two in-  
ches thick, then tamped into place to  
conform with the surface of the street.

Dry domestic cement was then ap-  
plied to the surface and the street was  
again rolled. Then a coating of sand  
was applied and the steam roller again  
used. The pavement was allowed to  
stand two weeks before it was thrown  
open to travel.

The cost was 80 cents a lineal foot  
to the property owners on each side of  
the street, or rather, would have been  
had the entire cost been assessed  
against them. The street has a prac-  
tically water-proof pavement six inches  
thick and it is impossible for the ele-  
ments to attack the surface. The pave-  
ment has now stood two winters and  
shows not the slightest wear. It gives  
off no dust in the summer although it  
is not sprinkled.

### PLURALITY OF JOHNSON.

Seems Certain to Exceed Twenty-five  
Thousand.

St. Paul, Nov. 7.—The plurality of  
Governor Johnson over J. F. Jacobson  
will exceed 25,000, but it will not  
reach 30,000. A table based upon com-  
plete returns from about two-thirds of  
the counties and almost complete re-  
turns from the other counties gives  
Johnson a plurality of 26,784. These  
figures will be changed slightly by the  
complete returns, but it is not likely  
that the changes in the different coun-  
ties will all be one way. There will  
be changes both ways, so the general  
result will be about the same.

BOY KILLED IN WEST BRAINERD

John Bushaway, Jr., Shot and Killed this Afternoon by Ralph Murry

SHOOTING WAS PREMEDITATED

Boy Went into House and got Father's Gun, Loaded it and Shot Bushaway

What appears to have been a cold blooded murder by a boy degenerate took place in West Brainerd this afternoon. John Bushaway Jr., the 10-year-old son of John Bushaway was instantly killed by Ralph Murray, the son of a neighbor. The only witnesses of the shooting were Frank Bushaway the 8-old-old brother of the victim and a son of Jerry Crowley, who was with the Murray boy. The Bushaway boys were picking up brush for an uncle across the street from the Murray home. There had been some trouble in the forenoon according John Bush. away, the father of the boy who was killed.

This afternoon, according to the little brother, Frank, they were quarrelling and young Murray declared he would fix him. He went into the Murray residence, according to Frank Bushaway, got his father's rifle and came out. He could not load it alone and young Crowley helped him put in the cartridge. He was unable to lift the gun to his shoulper but shot with it at his hip, the bullet striking John Bushaway in the neck, entering at the front and causing instant death.

Coroner Gibson was at once summoned and brought the remains to Clark's ndertaking rooms where they now are.

Young Murray was arrested some time ago for stealing a revolver from a neighbor's house, and according to Mr. Bushaway, has a hard name in the neighborhood.

Dairying

That this section is destined to be a great dairy section is now well understood by all thinking farmers. All the natural conditions point to dairying. Let us start right, for no matter how favorable nature is man must do his part. At the Farmers' Institute the the farmers will hear Mr. McGuire talk on this subject. He has carefully worked out a system of dairying that is giving him big cash returns. How to get the most cash out of our cows, out of the cows that we now have,—is what we most want to know. How to properly raise and feed our calves so as to make good, profitable cows out of them, how to use the skim milk to best advantage as a hog feed, and many of the small but important points in the care of the cow will be explained. It will pay you to come and listen. Brainerd, Saturday, Nov. 21.

TWO MORE BOYS PAID FINES TODAY

George Frey and Albert Nelson in Municipal Court for Taking Grain From Cars

SOLD FLAX TO THOMPSON

George Frey Stated that the Boys Sold Flax Gathered in Cars to Him

Two more boys were in municipal court this morning charged with participating in the taking of 15 bushels of from a loaded car in the Northern Pacific yards. They were in the same crowd with Lamb, McDonald and Shupe on October 22. George Frey pleaded guilty and said that this was the first time he had taken anything from a loaded car, but that he had swept flax from cars and sold it to Joe Thompson, who was fined last week for sweeping cars. He said Thompson did not pay them much and told them not to tell any other boys that he bought grain of them. Frey had \$6 he said and the county attorney asked the court to make the fine within his limit to pay. Judge Gardner fixed the fine at \$3.50 and costs. The latter amounting to \$1.50. Albert Nelson, a bright looking boy of 14, son of John Nelson plead guilty saying that he helped the boys carry away some wheat and he got half a sack full for chicken feed. He was fined the same as Frey.

RUMOR APPARENTLY FALSE

Report that Rudolph Lindberg Had Been Injured in Duluth is Declared Unfounded

A report has been in circulation today that Rudolph M. Lindberg, a fireman on the Northern Pacific, formerly residing with his parents at 65 Bluff Ave., north, had had his foot cut off. The Dispatch started out to run the story to earth, and found that there had been no telegrams received in this city concerning the alleged accident and trainmen from Duluth had heard nothing of of the sort. Any accident on the Lake Superior division would have been reported to this city, and it is practically certain that the report is a canard.

The report evidently grew from the injury of a fireman named Barquist, at Duluth night before last or yesterday morning.

MUSIC AND DRAMA

The Great Divide

Probably one of the greatest dramatic event of the season will be the presentation of "The Great Divide," which is announced for Monday night, Nov. 9, at the opera house when Henry Miller will present a superb company of distinguished players in William Vaughn Moody's masterful drama of American life. The entire production and scenic equipment will be given here precisely the same as during the two year's engagement in New York. Seat sale commences at Dunn's drug store Saturday morning.

The Lilliputians

A welcome variation from the usual run of this seasons attractions is promised in the coming of the Pollard Lilliputian Opera Company which begins and engagement at the opera house on Nov. 13. The organization is composed entirely of talented Australian children whose performances rise to the dignity of those presented by leading professionals. The little folks are selected solely on account of their talents and are subjected to the most careful and patient training. The operas and musical comedies to be presented during the engagement will be as follows: Friday, Nov. 13, Floradora, Saturday, Nov. 14, The Toy Makers.

HUNTLEY ARRESTED FOR NON-SUPPORT

Julia A. Huntley Charged C. F. Huntley, Her Common Law Husband

HE DENIED THE CHARGE

Says He is Willing to Support Her but Draws the Line on Her Family

C. F. Huntley was before Judge Gardner this morning on a warrant sworn out by Julia A. Huntley who declares herself his common law wife and charges that he refuses to support her. He denied that he had refused to support her, declaring that for 11 years he had not only supported her but her family and that he balked at. He was ready to take her into his home and support her he said. Deputy Sheriff Theorin was directed to bring her into court as soon as possible and Huntley was remaned to jail in default of \$250 bail. Deputy Sheriff Theorin went out to the Cameron place, where Mrs. Huntley is staying with a daughter, after the former, but she refused to come without a subpoena, saying that she wanted her husband to stay in jail over Sunday. The case was dismissed this afternoon.

I now take them as a tonic, and they keep me strong and well." 50c. at H. P. Dunn's drug store. t t s

Louismet-Jones

A pleasant wedding occurred at the Methodist Episcopal parsonage on Tuesday at 3 o'clock, when Albert J. Louismet and Ernestine L. Jones were united in matrimony by the Rev. Charles Fox Davis. The bride was assisted by Miss Mae Myers, of this city, and the groom attended by Webster S. Jones, brother of the bride. The wedding ceremony was performed in the presence of a few friends of the contracting parties and the short ring service of the church used. Both of the young people are well and favorably known by a large circle of Brainerdites, Mr. Louismet having worked as a machinist at the Northern Pacific shops, while the bride has been a resident of the city for several years. The young couple will make N. E. Minneapolis their future home, Mr. Louismet having recently entered into the insurance business there.

UNFAVORABLE REACTION.

Caused by Germany's Delay in Replying to Proposal of France.

Paris, Nov. 7.—With confidence that a settlement of the Casa Blanca incident will be reached still prevails, a dispatch from Berlin announcing Germany's reply to the proposal made by France through Ambassador Cambon is likely to be held over until after an examination of the Casa Blanca police commissary's report has caused a slight unfavorable reaction. The Figaro says it cannot see what good the examination of the commissary's report will do.

"Doubtless," it adds, "the imperial government wants to gain time, to which no objection can be raised if the desire is inspired by good motives, and if the intentions are less pure the delay will not be so important as the said government may think or hope."

SOUR FOOD AND GASSY STOMACH

Rid Yourself of Stomach Trouble and Dyspepsia Trouble

TAKE JUST A LITTLE DIAEPSIN

Then You Can Eat Your Favorite Foods Without Dread of Indigestion

Some people think they have Indigestion, others Catarrh of the stomach, others Nervousness, Cancer or Dyspepsia, etc. Call it this if you will, but the real name for your trouble is Food Fermentation, with only partial digestion. Everything you eat turns to either Acid, Stomach gas or Stomach poison, which weaken the digestive organs, causing a lack of gastric juice. Your food sours, is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, burning sensation, a feeling of vomiting, heartburn, water brash and tenderness in the pit of the stomach, slimy tongue, bad taste in the mouth, constipation, nausea, belching of gas, dizziness, sick headaches, mental depression and many other common symptoms.

You can cure all this by not eating, by not putting any food in your stomach to ferment; but how about the nourishment needed to sustain your bodily strength? If you are a stomach sufferer, either man or woman, young or old, whether you call it Indigestion or any other name, go now to your druggist and give 50 cents for a case of Pape's Diaepsin.

Every possible kind of Stomach trouble is readily cured by Diaepsin, which takes right hold of the food in your stomach and digests it alone, without the help of the stomach, just as if your stomach wasn't there.

After a few days use of Diaepsin your Stomach will again be in good working order, your meals will thoroughly digest and your intestines will be clean and fresh, and you will have no use for laxatives or liver regulators.

LITTLE HOPE FOR THEM.

Entombed Miners Believed to Have Perished.

Benton, Ill., Nov. 7.—The rescuing party that for twenty-four hours has been trying to reach the four miners who were entombed in the Rend mine at Rend City, three miles west of here, has not yet succeeded, and it may be some hours yet before the imprisoned miners are found.

That they were suffocated within thirty minutes after the explosion is the belief of Mine Inspector W. S. Burris, who thinks that the explosion was caused by a windy shot, which was quickly followed by after damp.

There is a faint hope, however, that the men are alive in some remote corner of the mine. Fire that was burning in the mine has now been extin-

guished.

Eighteen horses and mules were in the mine at the time of the explosion and all thus far found are dead.

MARYLAND'S VOTE SPLIT.

Baltimore, Nov. 7.—Calculations of the official returns from Tuesday's election show that the electoral vote of Maryland will be split, Bryan getting six of the electors and Taft two. On the popular vote—the vote cast for the elector receiving the highest number—Taft carries the state by 561 votes. The elector polling the highest vote received 116,471 and the highest Bryan elector 115,910.

The splitting of Maryland's electoral vote, whereby Bryan gets six and Taft two, as indicated by the result of the official count, will make the electoral college stand: Taft, 321; Bryan, 162.

## DIRECTS FIGHT FROM PRISON

Charles W. Morse Battling for His Freedom.

### SENTENCED TO FIFTEEN YEARS

Famous Financier May Be Forced to Serve Long Term in Federal Prison at Atlanta, Ga., for Misapplication of Funds of the National Bank of North America—Former President Curtis Given His Liberty.

New York, Nov. 7.—From a cell in the Tombs prison Charles W. Morse now directs the efforts of his counsel to secure his freedom, he having been sentenced to serve fifteen years in the federal prison at Atlanta, Ga., for misapplication of the funds of the National Bank of North America and making false entries in the books of the bank. Alfred H. Curtis, former president of the defunct bank, who was jointly tried and convicted with Morse, was given his liberty on a suspended sentence.

While Morse's lawyers immediately applied and secured a stay of execution for ten days after sentence had been imposed, still it is probable that Morse will remain a prisoner in the Tombs until Monday, as Judge Hough has refused to admit the financier to bail. The Morse lawyers applied to

### FOR REST AND RECREATION

President-Elect Taft and Family Go to Hot Springs, Va.

Cincinnati, Nov. 7.—President-elect William H. Taft, Mrs. Taft and Fred W. Carpenter, private secretary, have left this city for Hot Springs, Va., where Mr. Taft will remain for rest and recreation until Thanksgiving.

Judge Taft had a conference with Myron T. Herrick but stated afterwards that no matters of significance were discussed.

The offices of Mr. Taft have been dismantled here and will be re-established at Hot Springs. While no official announcement has been made it is known upon reliable authority that Fred W. Carpenter, who has been Mr. Taft's secretary for many years, will be his secretary to the president, succeeding in that position William Loeb, Jr., who, it is stated, may have the position of secretary of the navy in the Taft cabinet if he so desires.

Mr. Carpenter was with Mr. Taft in the Philippines and has been his secretary in the war department.

Wendall Mischler, assistant secretary, retains that position and after a leave of absence will rejoin Mr. Taft this fall.

### JAP STEAMER SUNK.

One Hundred and Fifty Persons Drowned.

Tokio, Nov. 7.—News has reached here of the loss of the steamer Taish Maru, which sunk during a storm off Etoro island. One hundred and fifty persons were drowned. The vessel was crowded with fishermen and passengers, and of those on board only twenty-nine were saved. The Taish Maru was a vessel of 674 tons. Etoro island is a small island near the island of Hokkaido.

## COMPLETE CHANGE IN THE SITUATION

All Immediate Danger of War in the Balkans Removed.

London, Nov. 7.—The correspondent of the Times at Belgrade in a dispatch says:

"A complete change in the situation here in the past few days seems to justify the anticipation that all immediate danger of war in the Balkans has been removed. This change is due to the firm attitude of the powers toward the impracticable schemes of territorial compensation.

"The crown prince of Serbia returns from Russia as the harbinger of peace and doubtless in the future will abstain from bellicose utterances, the Russian government having shown a determination not to aid or countenance any efforts on the part of Serbia or Montenegro to set aside what has been accomplished or to obtain territorial compensation by force of arms."

### TAXICAB STRIKE ENDED.

The Old Wage Scale for Chauffeurs Will Be Continued.

New York, Nov. 7.—Settlement of the taxicab strike, which has been in progress for several weeks in this city, was announced by President H. N. Allen of the New York Taxicab company. The decision to terminate the strike was arrived at, President Allen's signed statement says, at a conference between the directors of his company and a committee representing the chauffeurs employed by the company before the declaration of the strike.

The old wage scale is continued, it is stated; chauffeurs now in the employ of the company will be retained and old chauffeurs will be reinstated as soon as they can be furnished with cars, "after they have made individual application for employment."

The strike in its early stages was attended with disorders which in some cases reached a serious stage, resulting in the destruction of considerable property and the loss of several lives.

## EIGHT PERSONS PERISH IN FIRE

Terrible Tragedy Occurs in a Manitoba Farmhouse.

### ONLY ONE OF THE FAMILY LEFT

Mother and Six Children Cremated and the Father So Badly Burned That He Will Die—Young School Teacher Who Was Stopping With the Family Over Night Is the Other Victim of the Fire.

Swan Lake, Man., Nov. 7.—The home of E. W. Carey, a farmer living a few miles south of here, was destroyed by fire and Mrs. Carey, six children and a Miss Gillespie, a young school teacher who was staying over night with the family, perished in the flames. Mr. Carey was so badly injured that he cannot recover. The fire was caused by Carey lighting the kitchen fire with coal oil. The other occupants of the house, who were asleep, were suffocated in their beds.

Particulars of the tragedy are meager. Carey and his eldest son, Herbert, got up early in the morning. The boy went out to attend to the stock and returned to find the house in a blaze. The father remained inside to light the fires and the boy succeeded in pulling out his body, finding him unconscious but still alive. There was no opportunity of reaching the upper part of the house and the unfortunate victims were evidently cremated in their beds. When the charred remains were taken from the ruins later in the day they were burned beyond recognition.

On account of the rapidity with which the flames spread it is believed gasoline or some other inflammable and explosive substance must have been used in lighting the fire.

Of the children who lost their lives five were girls and one a boy, all young.

### COSTA RICAN A HERO.

Rescues Many Students Imperilled by Flames.

Washington, Nov. 7.—Thrilling escapes and heroic rescue work by a Costa Rican student, Ruben Herrera, marked a fire which burned to the ground the Bliss electrical school in North Takoma, a suburb north of the city, with a loss of \$130,000, partially insured. More than 150 students in the dormitories were awakened to find the buildings in flames and escaped in their night clothes, many jumping from second story windows, while others who were cut off by smoke and fire in the corridors slid down ropes to safety. That there was no fatality was miraculous.

Herrera distinguished himself for bravery by rushing through the burning building and arousing his fellow students, rescuing among others his roommate, Evan Mickle of Reading, Mich. Both young men, beaten back by the flames and smoke, made a spectacular descent down fire ropes that dangled from the cupola six stories from the ground.

Many students lost all their effects. Professor S. T. Cole, one of the instructors, was badly burned.

### SON SHOTS FATHER.

Latter Declares That the Boy Was Justified in Doing So.

Charlotte, N. C., Nov. 7.—Fearful lest his father strike his mother, whom he was pursuing with an axe, Ernest T. Hayes, twenty years old, shot and mortally wounded H. T. Hayes at Belmont, a suburb of this city. The youth at once surrendered to the police. The father was taken to the Presbyterian hospital, where it is said he will die.

The trouble, it is alleged, grew out of the demand by Hayes for money which he had given his wife. To attending physicians the father stated that the boy was justified in shooting him and begged that he be not prosecuted.

### FUMES PROVE FATAL.

Two Women and a Child Killed by Them in Washington.

Washington, Nov. 7.—Three persons were asphyxiated by gas fumes from a kitchen stove at 1309 I street, northwest, this city. The dead are: Mrs. Hebe Cutts Brennerman, Mrs. Brennerman, her mother-in-law, and Cutts Brennerman, aged eighteen months.

The house is occupied by the family of Clarence Brennerman, a stenographer employed at the congressional library. When Mr. Brennerman returned from work he found his wife, his mother and his infant son dead on the floor.

## FINDS HIS WIFE AND DAUGHTER MURDERED

Pennsylvania Man's Homecoming a Sad One.

East Pittsburgh, Pa., Nov. 7.—His wife lying on a bed, her throat cut from ear to ear, his six-year-old adopted daughter on the floor near by with her head almost severed, a razor dripping with blood on the bed beside the dead woman and great crimson splashes on the floor and bed clothing was the ghastly sight which confronted William Casey when he returned to his home in Fifth avenue, East McKeesport.

The scene of the tragedy was a room occupied by George Hartzell, Casey's son-in-law, whose wife was mysteriously killed a year ago. Hartzell has been boarding recently at the Casey home. Hartzell was missing when the murder was discovered, but forty-five minutes later he was found unconscious in a trunk near the bodies, a little bottle of chloroform at his nostrils. He died shortly afterward. Circumstances point to Hartzell as a murderer and suicide. He was under suspicion when his wife was found dead, but for lack of evidence was discharged.

### POLICE FORCE SURPRISED

Unexpected Shake Up the Result of Gambling Situation in New York.

New York, Nov. 7.—A "shake up" such as the police here have not experienced in years has taken place. Four inspectors were reduced in rank to captains, three captains were reduced to lieutenants, four inspectors were transferred, five captains were shifted to outlying precincts, two lieutenants were promoted to captains and ten sergeants were made lieutenants.

While Police Commissioner Bingham would not comment on the drastic step he had taken it was generally understood at police headquarters that the gambling situation had caused him to make the changes.

District Attorney Jerome has recently resumed his activities to stamp out the gambling houses of the tenderloin and other movements of a similar nature have been instigated. The "shake up" came as a surprise to the police force.

### Election Disorders in Portugal.

Lisbon, Nov. 7.—Election disorders occurred at Porto de Mose. A local Progressist leader fired a revolver from a window into a passing Regenerator parade, killing two persons. From the ranks of the procession a crowd of infuriated men rushed toward the building from which the shots had been fired and it was with difficulty that the troops rescued the assassin.

### Aged Man Killed by a Train.

Minneapolis, Nov. 7.—Minneapolis grade crossings, long feared death traps, added another victim to their long list when W. L. Daniels, sixty-three years old, was instantly killed by an outgoing St. Paul train between Snelling and Minnehaha avenues.

### Must Hang for Assault.

Charlotte, N. C., Nov. 7.—William Graham, a negro, on trial for criminal assault on Miss Pearl Tucker, a sixteen-year-old white girl, confessed and was sentenced to hang Dec. 18. The crime was committed a month ago. Graham was removed to the penitentiary under guard of the soldiers to await the execution of the sentence.

turns, will be settled Wright.

THE tariff will now be revised and  
the duties equalized to protect Ameri-  
can labor.

JOHNSON and Bryan are chronic office  
seekers. With this difference, Johnson  
is continually successful and Bryan un-  
successful.

Now let the newly elected officers of  
the city get busy and by their acts  
show that they are worthy of the con-  
fidence the voters reposed in them.

EVEN Missouri and Maryland are in  
the Republican column. The south  
shortly will break away from democra-  
cy to the good of that section as well  
as the entire county.

FIFTY cent wheat in democratic  
times and a dollar wheat in republican  
times made too strong an argument for  
the American farmer to resist when  
about to cast his ballot.

SHERIFF-Elect-Reed was calmly dig-  
ging potatoes at his farm in St. Ma-  
thias the morning after election when a  
passerby informed him of his election.  
He did not seem to think it was a  
great distinction to be elected over the  
here-to-fore invincible Ole

THE adoption of the new city charter  
legislates out of office next spring all  
the city officers just elected. Their re-  
election will depend on what pro-  
gress they make in the solution of the  
city water and light problem by that  
time. The matter should be taken up  
at once, and put into shape for active  
work in the spring.

AN interesting phase of the vote on  
the new city charter, is the fact, that  
the portion of the city where it is most  
needed, it was strongly opposed. Street  
and sewer improvements were difficult  
if not quite impossible under the old  
charter and yet East Brainerd and  
Southeast Brainerd, where these im-  
provements are yet to be made, voted  
against the new charter.

## MAKES EXCELLENT STREET

Mankato Has a Combination of Tar  
Macadam Which Makes a Good  
Street Just what Brainerd Needs

Just now when Brainerd is starting  
in upon the matter of building good  
streets and is casting around to find  
what in the way of a substantial street  
can be made for the least money, it  
may be interesting to know what Man-  
kato is doing in this line. The cost  
there for this street is given at practi-  
cally \$40 for a fifty foot front.

But from reports that city seems to  
have solved the problem of a cheap  
street and a good street, one that can  
be usedon steep grades as well as on a  
level surface.

First the driveway was narrowed to  
thirty feet, curbed, guttered and boule-  
vardeed. Then it was excavated to the  
depth of six inches and surfaced. Five  
inches of dry crushed stone one and one  
half inches in diameter was put on and  
rolled down with a ten ton roller.

Boiling tar was then applied from  
the gas works until the whole surface  
was covered. Then, says the Cement  
Age, a layer of broken stone an inch to  
an inch and a quarter in diameter  
mixed with coarse gravel was applied  
on the surface in proportion of three  
parts of stone to one of gravel. This  
was first mixed on a dry platform and  
and then thoroughly mixed with hot  
tar and applied on the surface two in-  
ches thick, then tamped into place to  
conform with the surface of the street.

Dry domestic cement was then ap-  
plied to the surface and the street was  
again rolled. Then a coating of sand  
was applied and the steam roller again  
used. The pavement was allowed to  
stand two weeks before it was thrown  
open to travel.

The cost was 80 cents a lineal foot  
to the property owners on each side of  
the street, or rather, would have been  
had the entire cost been assessed  
against them. The street has a prac-  
tically water-proof pavement six inches  
thick and it is impossible for the ele-  
ments to attack the surface. The pave-  
ment has now stood two winters and  
shows not the slightest wear. It gives  
off no dust in the summer although it  
is not sprinkled.

## PLURALITY OF JOHNSON.

Seems Certain to Exceed Twenty-five  
Thousand.

St. Paul, Nov. 7.—The plurality of  
Governor Johnson over J. F. Jacobson  
will exceed 25,000, but it will not  
reach 30,000. A table based upon com-  
plete returns from about two-thirds of  
the counties and almost complete re-  
turns from the other counties gives  
Johnson a plurality of 26,784. These  
figures will be changed slightly by the  
complete returns, but it is not likely  
that the changes in the different coun-  
ties will all be one way. There will  
be changes both ways, so the general  
result will be about the same.

# BOY KILLED IN WEST BRAINERD

John Bushaway, Jr., Shot and Killed this Afternoon by Ralph Murry

## SHOOTING WAS PREMEDITATED

Boy Went into House and got Father's Gun, Loaded it and Shot Bushaway

What appears to have been a cold blooded murder by a boy degenerate took place in West Brainerd this afternoon. John Bushaway Jr., the 10-year-old son of John Bushaway was instantly killed by Ralph Murry, the son of a neighbor. The only witnesses of the shooting were Frank Bushaway the 8-old-old brother of the victim and a son of Jerry Crowley, who was with the Murray boy. The Bushaway boys were picking up brush for an uncle across the street from the Murray home. There had been some trouble in the forenoon according John Bushaway, the father of the boy who was killed.

This afternoon, according to the little brother, Frank, they were quarreling and young Murray declared he would fix him. He went into the Murray residence, according to Frank Bushaway, got his father's rifle and came out. He could not load it alone and young Crowley helped him put in the cartridge. He was unable to lift the gun to his shoulder but shot with it at his hip, the bullet striking John Bushaway in the neck, entering at the front and causing instant death.

Coroner Gibson was at once summoned and brought the remains to Clark's undertaking rooms where they now are. Young Murray was arrested some time ago for stealing a revolver from a neighbor's house, and according to Mr. Bushaway, has a hard name in the neighborhood.

## Dairying

That this section is destined to be a great dairy section is now well understood by all thinking farmers. All the natural conditions point to dairying. Let us start right, for no matter how favorable nature is man must do his part. At the Farmers' Institute the farmers will hear Mr. McGuire talk on this subject. He has carefully worked out a system of dairying that is giving him big cash returns. How to get the most cash out of our cows, out of the cows that we now have, is what we most want to know. How to properly raise and feed our calves so as to make good, profitable cows out of them, how to use the skim milk to best advantage as a hog feed, and many of the small but important points in the care of the cow will be explained. It will pay you to come and listen. Brainerd, Saturday, Nov. 21.

## TWO MORE BOYS PAID FINES TODAY

George Frey and Albert Nelson in Municipal Court for Taking Grain From Cars

## SOLD FLAX TO THOMPSON

George Frey Stated that the Boys Sold Flax Gathered in Cars to Him

Two more boys were in municipal court this morning charged with participating in the taking of 15 bushels of grain from a loaded car in the Northern Pacific yards. They were in the same crowd with Lamb, McDonald and Shupe on October 22. George Frey pleaded guilty and said that this was the first time he had taken anything from a loaded car, but that he had swept flax from cars and sold it to Joe Thompson, who was fined last week for sweeping cars. He said Thompson did not pay them much and told them not to tell any other boys that he bought grain of them. Frey had \$6 he said and the county attorney asked the court to make the fine within his limit to pay. Judge Gardner fixed the fine at \$3.50 and costs. The latter amounting to \$1.50. Albert Nelson, a bright looking boy of 14, son of John Nelson pleaded guilty saying that he helped the boys carry away some wheat and he got half a sack full for chicken feed. He was fined the same as Frey.

## RUMOR APPARENTLY FALSE

Report that Rudolph Lindberg Had Been Injured in Duluth is Declared Unfounded

A report has been in circulation today that Rudolph M. Lindberg, a fireman on the Northern Pacific, formerly residing with his parents at 65 Bluff Ave., north, had had his foot cut off. The Dispatch started out to run the story to earth, and found that there had been no telegrams received in this city concerning the alleged accident and trainmen from Duluth had heard nothing of the sort. Any accident on the Lake Superior division would have been reported to this city, and it is practically certain that the report is a canard.

The report evidently grew from the injury of a fireman named Barquist, at Duluth night before last or yesterday morning.

## MUSIC AND DRAMA

### The Great Divide

Probably one of the greatest dramatic event of the season will be the presentation of "The Great Divide," which is announced for Monday night, Nov. 9, at the opera house when Henry Miller will present a superb company of distinguished players in William Vaughn Moody's masterful drama of American life. The entire production and scenic equipment will be given here precisely the same as during the two year's engagement in New York. Seat sale commences at Dunn's drug store Saturday morning.

### The Lilliputians

A welcome variation from the usual run of this seasons attractions is promised in the coming of the Pollard Lilliputian Opera Company which begins engagement at the opera house on Nov. 13. The organization is composed entirely of talented Australian children whose performances rise to the dignity of those presented by leading professionals. The little folks are selected solely on account of their talents and are subjected to the most careful and patient training. The operas and musical comedies to be presented during the engagement will be as follows: Friday, Nov. 13, Floradora, Saturday, Nov. 14, The Toy Makers.

## HUNTLEY ARRESTED FOR NON-SUPPORT

Julia A. Huntley Charged C. F. Huntley, Her Common Law Husband

## HE DENIED THE CHARGE

Says He is Willing to Support Her but Draws the Line on Her Family

C. F. Huntley was before Judge Gardner this morning on a warrant sworn out by Julia A. Huntley who declares herself his common law wife and charges that he refuses to support her. He denied that he had refused to support her, declaring that for 11 years he had not only supported her but her family and that he balked at. He was ready to take her into his home and support her he said. Deputy Sheriff Theorin was directed to bring her into court as soon as possible and Huntley was remanded to jail in default of \$250 bail. Deputy Sheriff Theorin went out to the Cameron place, where Mrs. Huntley is staying with a daughter, after the former, but she refused to come without a subpoena, saying that she wanted her husband to stay in jail over Sunday. The case was dismissed this afternoon.

I now take them as a tonic, and they keep me strong and well." 50c. at H. P. Dunn's drug store. t t s

## Louismet-Jones

A pleasant wedding occurred at the Methodist Episcopal parsonage on Tuesday at 3 o'clock, when Albert J. Louismet and Ernestine L. Jones were united in matrimony by the Rev. Charles Fox Davis. The bride was assisted by Miss Mae Myers, of this city, and the groom attended by Webster S. Jones, brother of the bride. The wedding ceremony was performed in the presence of a few friends of the contracting parties and the short ring service of the church used. Both of the young people are well and favorably known by a large circle of Brainerdites. Mr. Louismet having worked as a machinist at the Northern Pacific shops, while the bride has been a resident of the city for several years. The young couple will make N. E. Minneapolis their future home, Mr. Louismet having recently entered into the insurance business there.

## UNFAVORABLE REACTION.

Caused by Germany's Delay in Replying to Proposal of France.

Paris, Nov. 7.—With confidence that a settlement of the Casa Blanca incident will be reached still prevails, a dispatch from Berlin announcing Germany's reply to the proposal made by France through Ambassador Cambon is likely to be held over until after an examination of the Casa Blanca police commissary's report has caused a slight unfavorable reaction. The Figaro says it cannot see what good the examination of the commissary's report will do.

"Doubtless," it adds, "the imperial government wants to gain time, to which no objection can be raised if the desire is inspired by good motives, and if the intentions are less pure the delay will not be so important as the said government may think or hope."

## SOUR FOOD AND GASSY STOMACH

Rid Yourself of Stomach Trouble and Dyspepsia  
Trouble

## TAKE JUST A LITTLE DIAPEPSIN

Then You Can Eat Your Favorite Foods Without Dread of Indigestion

Some people think they have Indigestion, others Catarrh of the stomach, others Nervousness, Cancer or Dyspepsia, etc. Call it this if you will, but the real name for your trouble is Food Fermentation, with only partial digestion. Everything you eat turns to either Acid, Stomach gas or Stomach poison, which weaken the digestive organs, causing a lack of gastric juice. Your food sours, is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, burning sensation, a feeling of vomiting, heartburn, water brash and tenderness in the pit of the stomach, slimy tongue, bad taste in the mouth, constipation, nausea, belching of gas, dizziness, sick headaches, mental depression and many other common symptoms.

You can cure all this by not eating, by not putting any food in your stomach to ferment; but how about the nourishment needed to sustain your bodily strength? If you are a stomach sufferer, either man or woman, young or old, whether you call it Indigestion or any other name, go now to your druggist and give 50 cents for a case of Pape's Diapepsin.

Every possible kind of Stomach trouble is readily cured by Diapepsin, which takes right hold of the food in your stomach and digests it alone, without the help of the stomach, just as if your stomach wasn't there.

After a few days use of Diapepsin your Stomach will again be in good working order, your meals will thoroughly digest and your intestines will be clean and fresh, and you will have no use for laxatives or liver regulators.

## LITTLE HOPE FOR THEM.

Entombed Miners Believed to Have Perished.

Benton, Ill., Nov. 7.—The rescuing party that for twenty-four hours has been trying to reach the four miners who were entombed in the Rend mine at Rend City, three miles west of here, has not yet succeeded, and it may be some hours yet before the imprisoned miners are found.

That they were suffocated within thirty minutes after the explosion is the belief of Mine Inspector W. S. Burris, who thinks that the explosion was caused by a windy shot, which was quickly followed by after damp.

There is a faint hope, however, that the men are alive in some remote corner of the mine. Fire that was burning in the mine has now been extin-

guished. Eighteen horses and mules were in the mine at the time of the explosion and all thus far found are dead.

## MARYLAND'S VOTE SPLIT.

Baltimore, Nov. 7.—Calculations of the official returns from Tuesday's election show that the electoral vote of Maryland will be split, Bryan getting six of the electors and Taft two. On the popular vote—the vote cast for the elector receiving the highest number—Taft carries the state by 561 votes. The elector polling the highest vote received 116,471 and the highest Bryan elector 115,910.

The splitting of Maryland's electoral vote, whereby Bryan gets six and Taft two, as indicated by the result of the official count, will make the electoral college stand: Taft, 321; Bryan, 162.

## Be Sure

Do not trust too much to your own judgment in medical matters. Consult your doctor frequently. He knows best.

Hard colds, hard coughs, severe bronchitis, weak throats, weak lungs. We wish you would ask your doctor if he knows of anything better for these troubles than Ayer's Cherry Pectoral. We believe it is the best medicine you could possibly take. But ask your doctor, and thus be sure to make no mistake. J. C. Ayer & Co., Lowell, Mass.
